

EDUCATION PARTNERS!

Let's build talent pipelines, together

CEWD represents the diverse interests of the **entire energy sector** and serve as the **first stop** for **information, collaboration, leadership, and resources** for workforce planning, recruitment, development and retention

WHY WE NEED TO ACT NOW

Energy and Natural Resources (ENR) industries focus on exploring, producing, delivering, managing, and conserving natural resources and energy to meet society's needs – reliably, efficiently, and sustainably. We need to mobilize talent to meet the unprecedented need for ENR roles.

3x energy workers needed by 2032

78% of Gen Z believe with training they can perform a green job

75% of energy providers say they struggle to find talent

REGISTER FOR ENERGYCONNECTOR

EnergyConnector is a **digital matchmaking tool** that allows industry partners to offer in-demand resources to educators to fund, enrich, and enable ENR education, so students can find high-potential careers

Registration Steps:

1. Navigate to the EnergyConnector Dashboard Under "Ready to get started?" select **Create Educator Profile**
2. Fill out your profile information
3. *Matching will go live late 2025*
4. Browse EnergyConnector for helpful classroom resources in your area
